

SCHEDULE OF PERMIT FEES

BUILDING PERMIT FEES

Building permit fees shall apply to permits for structures including, but not limited to, commercial buildings, residential buildings, accessory buildings, retaining walls, foundations and telecommunication towers.

Valuation*:	Fee:
\$1,000 and less:	\$25.00
\$1,000 to \$50,000:	\$25.00 for the first \$1000.00 plus \$5.00 for each additional thousand or fraction thereof, to and including \$50,000.00.
\$50,000 to \$100,000:	\$270.00 for the first \$50,000.00 plus \$4.00 for each additional thousand or fraction thereof, to and including \$100,000.00.
\$100,000 to \$500,000:	\$470.00 for the first \$100,000.00 plus \$3.00 for each additional thousand or fraction thereof, to and including \$500,000.00.
\$500,000 and up:	\$1670.00 for the first \$500,000.00 plus \$2.00 for each additional thousand or fraction thereof.

*Valuation for the purpose of establishing permits fees shall reflect all of the project construction costs including structural, electrical, plumbing, mechanical, interior finish, normal site preparation, architectural design fees, overhead and profit, but is not to include land acquisition cost. The building official is authorized to rely on the permit applicant to provide the Valuation, however, if in the opinion of the building official the Valuation provided by the permit applicant does not reasonably reflect the project construction cost, the building official may determine the project Valuation by using the method provided in the most current Building Valuation Data printed semi-annually in the Building Safety Journal published by the International Code Council.

BUILDING PLAN REVIEW FEES

If the scope of a construction project requires submitting of construction documents to be reviewed for compliance with applicable regulations, then a plan-checking fee shall be paid at the time of submitting plans and specifications for checking. Said plan-checking fee shall be equal to one-half the building permit fee except that the plan-checking fee shall not exceed \$1000.00. Such plan-checking fee is in addition to the building permit fee. Structures that fall within the scope of the International Residential Code shall not be subject to plan-checking fees.

PENALTIES

Where work for which a permit of any type is required and is started or proceeded prior to obtaining said permit, the fees herein specified shall be doubled, but the payment of such double fee shall not relieve any persons from fully complying with any applicable requirements in the execution of the work nor from any other penalties as applicable.

Exceptions:

- a) When work was necessary in the opinion of the building official to correct an immediate hazard and an application is filed within the next business day.
- b) When work was performed by a previous owner and the current owner did not create the violation and is obtaining proper permit(s) to correct the violation.
- c) The property owner has voluntarily contacted the codes department to remedy unpermitted construction that would have normally required a permit at the time the work was performed.
